## **Caledonia Community Schools Voters Approve Renewal of Non-Homestead Operating Millage**

**Caledonia, Mich.** – The Caledonia Community Schools district is pleased to announce that voters have approved the renewal of the Non-Homestead Operating Millage, a critical source of funding for day-to-day school operations.

The renewal ensures that the district continues to receive the non-homestead portion of our operating funding, amounting to approximately \$15.6 million annually. These funds support classroom instruction, student services, and staffing across all school buildings.

"We are incredibly thankful to our community for showing continued support for our students, staff, and schools," said Superintendent Dr. Dirk Weeldreyer. "This vote reflects a shared belief in the importance of strong public education and a willingness to invest in the success of every Caledonia student. We're grateful to walk alongside a community that values education so deeply."

Caledonia Community Schools extends heartfelt appreciation to all voters who participated in this election. With this renewal in place, the district remains focused on its mission to provide exceptional learning opportunities that prepare students for lifelong success.
